# 6.003 Homework #11

*This homework consists of a single Engineering Design Problem, which is due on Wednesday, November 23. Because of the Thanksgiving holiday, revisions are due on Monday, November 28.*

## Engineering Design Problem

**1. Image reconstruction**

The rows and/or columns of the following images have been blurred. Figure out a way to sharpen each image, and identify the building. Here are thumbnails of the images:

a1        a2

b1        b2

c1        c2

The images are available in machine-readable form (buildings.zip) on the 6.003 website.
