

**Third Paper**

Paper 3 (5 pages): Students will produce a paper that articulates and defends their own position on the question they have chosen.

This should be self-explanatory, but the idea is that you should now develop an argument, taking into account the stakeholders you have been considering and the common ground you have found, to defend your point of view on the question you've been exploring during the latter part of the term.

**All papers must include this cover sheet (you may use a word processor to complete). Please answer the questions below:**

Your Name: \_\_\_\_\_

TA's Name: \_\_\_\_\_

*Question you are considering:*

*Thesis you now defend in response to the question:*

*Common ground between your position and your opposition:*

*Brief sketch of argument(s) you will consider supporting your opposition's position:*
